

MRS. JOHN GREEN'S new Dodge car had a replacement windshield after only a few hours of driving.

It was the story of a case of bad luck all the way around, Husband John will tell you. The congenial Dodge dealer and his wife decided that they had better be driving a new 1959 model car—just as a demonstration to their friends. And the week-end would be the ideal time to take it out, they reasoned. So after closing about noon the other Saturday, they got ready for their first spin in the glistening machine.

"But how about insurance on the car?" they reasoned. They called the insurance man and got no answer; then they drove by his house, but he wasn't at home. "Oh, well, we'll get it covered the first thing Monday morning."

They started to Sweetwater, and hadn't been gone two minutes before they met one of the big trucks hauling caliche on the road project between Hamlin and Stamford—and, crash! A big hole in the windshield!

John will tell you that these new curved windshields are expensive—even at wholesale! Especially when one has no insurance to cover the bill.

THESE PERT JIB-LINES are picked up from hither and thither... one of our choice occupations...

With some girls the end justifies the means.

The latest thing in knit goods are garments that are not only wash-and-wearable but also are shrink, crease, stain and odor resistant. Just the thing for the man who needs everything.

Keep your body fit, your mind keen, your conscience clear, and you need never fear the dark or the light.

College graduates have higher lifetime earnings than non-grads. Success, it appears, is a matter of degrees.

PEARL HUDSON, long-time Hamlin fisherman who has found a little time to clerk and operate a ladies' wear shop on the side during the past few years, is not much impressed with the modern rods and reels and other paraphernalia of fishermen. They clutter up one's fishing.

Some days ago, while fishing with brothers Sock and Red Hudson at a tank northwest of town, she got her fill of the modern fishing gear.

One of the brothers laid his fancy rod and reel on the bank and hid away on an excursion around the tank, asking Miss Pearl to look after the thing.

Sure enough, an unsuspecting fish took hold of the fancy line, and Miss Pearl went to the rescue.

After several seconds she became so enmeshed in the bulky line that she was undecided who was being hooked—the fish or the fisherman.

"These blankety-blank city dude fishermen" she was heard to be saying under her breath as the boys returned to rescue their sister from her home-made net.

BERNARD BARUCH, famous business man and former long time political figure in the East, offered this recipe for success:

Be polite; prepare yourself for whatever you are asked to do; keep yourself tidy; be cheerful; don't be envious; be honest with yourself so you will be honest with others; be helpful.

Interest yourself in your job; don't pity yourself; be quick to praise; be loyal to your friends; avoid prejudices; be independent; interest yourself in politics; and read the newspapers.

The Country Parson

"Some folks think they are leaders because they're in front—like the slow car that stays in front by holding others back."

THE MERRIOTT SISTERS of Stamford, Linda (left) and Pat, are shown above grooming "Bud Turner," one of their four registered quarter horses, who will ride in the parade of the Texas Cowboy Reunion at 4:00 p. m. July 2 and make a special appearance the afternoon of July 4. Linda has twice won the state of Texas championship in barrel races, and appeared in the national high school shows.

Old Glory Highway Extension Due Soon

Another major highway project in the Hamlin territory is scheduled for contract letting on July 22 by the Texas Highway Commission, according to a release to The Herald from Austin. It is part of a two-year program announced in 1957 that will aggregate expenditures of more than \$2,000,000 within a 20-mile radius of Hamlin.

Elva Siburt of Hamlin Wins Scholarship for Music Work at LCC

Elva Siburt, daughter of Mr. and Mrs. Austin Siburt of Hamlin, has recently been awarded a piano scholarship at Lubbock Christian College for her outstanding work at the school the past season.

Elva, a 1958 graduate of Hamlin High School, had a successful freshman year at the two-year junior college, where next year enrollment is expected to be 450 or more. She is a music major, and was chosen as accompanist for the 90-voice a cappella chorus. A spirited cheer-leader, she also played in the LCC orchestra and for many private voice lessons.

Miss Siburt was named student director of the chorus; vice president of the Christlike Dancers Club, a girls' social club; vice president of the Music Masters Club; and reporter of the Rodeo Club for the year 1959-60.

Motorists Urged to Observe Traffic Code During Fourth of July Driving

"Keep your safety guard up and keep accidents down."

That is the advice of the National Safety Council as America gets ready to celebrate the Fourth of July.

"People get a little too care-free simply because it's a holiday," the council warned. "They forget to be cautious. They get 'holiday happy'."

The council added that holiday periods are among the most dangerous times of the year—25 to 30 per cent more dangerous on the highway, for example than normal periods.

"And that's the time," said the council, "when everyone should be more safety conscious than ever."

Wheat Harvest About Completed in Area

Wheat harvest in the Hamlin territory is practically completed, declare grain men. The crop has turned out much better than was indicated six weeks ago after needed maturing rains for the grain failed to come after good early growth.

Maize in the area is looking the best it has in many years, declare old-timers.

Latest highway project calls for grading, bridge structures, base and surfacing on 8.852 miles of Farm-to-Market Highway 1835 in Stonevill County, from 4.5 miles south of Old Glory south to the Jones County line.

The contractor will have 150 working days to complete the job. Nelson Shave, resident highway engineer at Hamlin, will be supervisor for the project.

The highway job is part of a 22-mile stretch from Hamlin to Old Glory. Four and one-half miles of the road already has been built south from Old Glory, and on eight-mile stretch has been completed north from Hamlin.

A new concrete bridge across the Double Mountain Fork of the Brazos River, estimated to cost about \$80,000, will be let in a separate contract soon, The Herald understands.

Incidentally, two other projects in the area are about completed. Cage Brothers has surfaced the eight-mile stretch from Hamlin north to the Stonevill County line. A & A Contractors, Inc. of Olney has surfaced about half of the 17.177-mile stretch of Highway 92 from Hamlin to Stamford. Surfacing was completed over the week-end on the east end from the Price Amerson place eastward to the Stamford cut-off on Highway 277. The west end is being readied for the surfacing, which probably will be completed within 10 to 20 days.

Jones County Fair Set September 4-5 At Anson by Board

Organization of the Jones County Fair Association has been completed with the naming last week-end of J. W. Simmons Anson and Hamlin businessman-farmer, as president, it was announced this week.

Annual showings of livestock and farm products for both adult and youth groups are being planned by the association, with the initial fair slated for September 4 and 5 of this year in Anson.

The organization has been set up as a county-wide project in the true sense of the word, every town and community in the county being represented on the board of directors, executive committee or list of departmental superintendents by key men and women.

Departments for this year's exhibition will include sheep, dairy cattle, swine, beef cattle, fat steers, quarter horses, crop exhibits, women's division (including clothing, foods and hobbies) and a junior girls' and teen-age department.

Plans for the fair were developed at meetings held in offices of the county and home demonstration agents during May and June, and are the culmination of several years of thinking in this field. Dates for the initial show were selected to fall between the Fisher County Fair and the West Texas Fair at Abilene to avoid conflicts and make it possible for Jones County exhibitors to get their animals in better shape for the regional show. This fall's fair is modeled after the Fisher County Fair.

See COUNTY FAIR—Page 3

Donley Williams Off For Lions Convention

Donley Williams, president-elect of Hamlin Lions Club, and family left last Wednesday for New York City, where they are this week attending the annual convention of Lions International. An attendance of some 22,000 was expected.

The Williams wet by auto via Georgia, where they visited relatives. They are due to return next week.

GOVERNOR AWAITS DECISION—Governor Earl K. Long of Louisiana pinches hat as he holds it and cigarette in same hand outside courtroom in Galveston, where he made try for freedom from John Sedly Hospital. He later flew to New Orleans and entered a private hospital only to leave the next day and subsequently was arrested and confined in the Southeast Louisiana Hospital at Mandeville.

Most Hamlin Businesses To Observe July 4 Holiday

WATER LINE GIVEN TO CITY—Two officials of the Santa Fe Railway last week made formal presentation to the City of Hamlin of the 1,505-foot four-inch water line from the city tank southwest of the Santa Fe station, valued at some \$1,200. Shown in the above picture presenting to Mayor L. H. McBride the bill of Barrow, city secretary; Mayor L. H. McBride; Superintendent W. A. J. Carter of Slaton is sale. Seated (left to right) are Mrs. H. M. Superintend W. A. J. Carter, and J. W. Standing (left to right) are City Councilmen Urell, and Weldon Johnson, local Santa Fe Railway agent.

Little Opposition Indicated In City Water Bond Election

Four Hamlin Young Men Enlist in Army

Four Hamlin young men last week enlisted in the U. S. Army through the Abilene induction center.

These four men were among a group of recent inductees who were assigned to Fort Carson, Colorado, for basic training. They were flown to the base last Wednesday.

The enlistees were Wesley Dean Ackley, 17; Freddy Neal Boen, 21; Tommy Charles Hamilton, 18; and Carl Travis Young, 22.

It's strange how otherwise intelligent men always fall for stories that the fish were biting better two hours ago, or yesterday, or just a little bit farther out.

ELVA SIBURT, daughter of Mr. and Mrs. Austin Siburt of Hamlin, who recently completed her freshman year at Lubbock Christian College, has been awarded a piano scholarship for next year for her outstanding work in music the past term at the new college.

Applications for Wheat Allotments Must Be Filed Soon

Wheat allotment applications for certain farms are now being accepted by the Agricultural Stabilization and Conservation committee office at Anson.

A producer who intends to seed wheat for 1960 on a farm on which no wheat was seeded for harvest as grain in 1957, and for which a 1958 and 1959 allotment was not established, irrespective of whether or not wheat was seeded for harvest as grain in either 1958 or 1959, and who desires to be considered for an allotment must make application for an allotment, according to R. G. Rowell, chairman of the Jones County ASC committee.

Application forms are available in the ASC county office for use in filing a request for an allotment.

Producers who wish to apply for an allotment must file their applications on this prescribed form at the ASC office not later than July 1.

Visitors to Hamlin judge it largely by the people they meet here. What do you do to make Hamlin more attractive to visitors and newcomers?

Few Ballots Cast In Absentee Vote Late Last Week

Little opposition to the proposed \$100,000 bond issue for the City of Hamlin has been heard by a Herald reporter in a check-up on opinions over the week-end. The proposal was to be decided in voting Wednesday (press day for Your Home Town Paper).

The bond election was called four weeks ago by the City Council as a means of raising funds to finance badly needed improvements to water storage and city mains. Of the \$100,000 issue, \$80,000 would go to build new underground water storage, and \$20,000 for mains.

City officials point out that present storage facilities provide less than a day's supply of water during summer months. If a major break were to occur in the line to Paint Creek Lake, from which most of the city's supply comes, for example, the city could be without water in less than 24 hours. Citizens of the town are paying a penalty on fire insurance as a result of this situation, councilmen say. Hence, the improvements are desperately needed.

No new city tax would be required to retire the new bonds, city officials declare. By merely reappportioning present tax revenues to \$1 for general fund and 50 cents for bonds (from the present \$1.10 for general fund and 40 cents for bond retirement), the new bonds could be paid off, says Mayor L. H. McBride.

A good turnout of voters was expected to participate in Wednesday's election.

City Curb and Gutter Project Progressing

More than 20 blocks of curb and gutter have been constructed by city crews during the past several months, declares Bill Rountree, city superintendent.

The work, being done for 85 cents per front foot, is continuing. Property owners who can work up as much as a complete block are urged to contact Rountree.

Scheduled for work this week are four blocks on Southeast Avenue A, running north from the Market Poultry & Egg Company.

Many Will Go to Cowboy Reunion And Other Events

Hamlin's business section will be a quiet area Saturday, as practically all the business houses of the town will shut up shop for observance of the Fourth of July as a legal holiday.

A check by a Herald representative Friday indicated that probably one grocery store would not cooperate in the closing for the day. Most of the service stations will be open to take care of tourists and others needing gasoline and oil for travel.

Independence Day is one of six holidays for the year approved by a big majority of business houses polled late last year. The fact that the Fourth of July comes on Saturday makes it difficult for some business houses to close, but inasmuch as people are being notified well in advance of the holiday should inconvenience very few, it is pointed out.

The usual Saturday drawing in the Appreciation Day project will not be held Saturday on account of the holiday. The treasure chest will grow, however, with addition of the usual amount.

No special entertainment feature is planned for Hamlin for Independence Day. Picnics at the City Park and other spots are planned by family and other groups. The swimming pool at the park will be open all day.

Scores of Hamlin area people will be attending the Texas Cowboy Reunion at Stamford this week-end. The affair opens Thursday and continues through Saturday.

Hamlin Soldiers Go To Annual Camp for National Guardsmen

Several Hamlin soldiers are among a contingent of National Guardsmen of Company A of the Second Battalion of Texas Artillery from Stamford and Snyder who left Sunday for a 14-day tour of duty at Fort Hood at the annual National Guard camp. They will return July 12.

In command of the company, made up of 53 men from Stamford and 67 men from Snyder, is First Lieutenant Joe E. Ford of Hamlin, who is due to be elevated to captain during the camp.

Besides Ford, men from Hamlin in the group are Master Sergeant Billy J. Jordan, Corporals William Fairbetter and Douglas Ford and Privates First Class Benny Watson and James Lain.

Master Sergeant Don Gregory will go with the Abilene Rocket Company for his ninth camp.

Approximately 9,000 men in the 36th Infantry Division will be at camp during this session. The annual parade before Governor Price Daniel of Texas and high Army officials will be Friday, July 10, Ford announces.

Work Begun on New Dial Phone Building

Excavation for the new dial telephone plant of Southwestern Bell Telephone Company on Southwest Avenue A has been made and construction is scheduled to be well underway this week.

Boyd J. McDaniel of Abilene holds the contract for the plant that will eventually cost \$202,000.

Only one new citizen has been recorded at the Hamlin Memorial Hospital since last week's report in The Herald. The new arrival is:

A son was born to Mr. and Mrs. Bobby Joe Craft on June 23. Weighing a heavy nine pounds two ounces at birth, the youngster has been named Kenneth Louis.

IT MAY NOT ALWAYS HAPPEN TO OTHER GUY

Accidents killed 655 "other guys" during the Fourth of July holiday last year.

Three hundred and seventy "other guys" died in traffic, 192 by drowning and 93 in miscellaneous accidents.

Not one of those 655 thought an accident could or would happen to him.

The "other guy" is all of us. No one is immune from accidents. Or rather, everyone is immune to the extent of his own caution or common sense.

More than 2,800 Americans were drafted into the luckless legion of automobile casualties in 1958.

In its annual highway safety booklet entitled "The Luckless Legion," the Travelers Insurance Companies pointed out "This is an army of suffering humanity which grows more rapidly each year. It is made up of the injured and the dead, the headless and the innocent, the young and the old. Since the automobile first appeared on the American scene, these ranks of the crippled and the dead have included more than 60,000,000 of us."

The luckless legion is a silent, haunted army. We erect no monuments to it. No grim reminders mark the sleek beauty of the roads and highways which are its field of

battle. A newspaper headline, perhaps, marks the induction of the latest recruit. Then silence. Silent suffering. A lifetime of pain. Or the silent memories of those who mourn when the dead are laid to rest.

There were 36,700 men, women and children numbered among the dead of the luckless legion during the past year. For every fatality there were 77 people who suffered painful injuries. Hour by hour and day by day, this total climbed until it reached the staggering total of 2,825,000.

Injuries during the past year rose 12 percent—twice the rate of increase for the previous year. In the rising curve of injuries lies the greatest waste of property and human resources in our nation. Behind the lines of our efforts toward national progress, the luckless legion stands as a vast fifth column.

This Fourth of July—like last year's—will be a three-day week-end holiday for millions of Americans. The National Safety Council has warned that motorists will clog highways and fun-seekers will jam parks, lakes and picnic grounds. The time will be ripe for some kind of accident.

Don't you be one of the "other guys" this Independence Day!

Byrd Predicts Deficit

Senator Harry F. Byrd, Virginia Democrat who is famed for his knowledge of economics and government finance, has predicted a deficit for the coming fiscal year of between \$1,200,000,000 and \$4,200,000,000. This contrasts with the surplus predicted by President Eisenhower, in presenting his budget to Congress, which the president hopes will total \$70,000,000.

The present fiscal year has produced a disastrous deficit, which may now total over \$13,000,000,000. The latest estimate in Washington was for something over \$12,000,000,000, but the joint committee on internal revenue taxation has recently predicted the deficit will total from \$13,100,000,000 and \$14,000,000,000.

Senator Byrd says the need for President Eisenhower to veto every bill involving excessive expenditures is crystal clear and vital to this country's future. The reader probably knows that the United States taxpayer is now burdened with an interest bill each year totaling approximately \$7,000,000,000. This huge amount of money (the total federal budget is about 77,000,000,000) is needed to pay interest on a national debt which is edging toward \$300,000,000,000.

The deficit for the current fiscal year, if it reaches \$14,000,000,000, as the joint committee predicts, will mean that the U. S. taxpayer will be saddled with an additional annual interest assessment of over one-half billion dollars.

Nuggets of Thought

Generosity, wrong placed, becometh a vice, a princely mind will undo a private family.—Thomas Fuller.

When you give, take to yourself no credit for generosity, unless you deny yourself something in order that you may give.—Sir Henry Taylor.

There is work that is work and there is play that is play; there is play that is work and work that is play. And in only one of these lies happiness.—Gelett Burgess.

Pray as if it all depends on God, but work as if it all depended on you.—Laurence Jones.

The three great essentials to achieve anything worth while are, first, hard work, second, stick-to-itiveness, third, common sense.—Thomas Edison.

Nothing is really work unless you would rather be doing something else.—Chub de Wolfe.

It is not the dawdlers and triflers who find life worth living; it is the steady, strenuous, robust workers.—Charles W. E.

The Piano Said "Do"

Alexander Bell was experimenting with his new invention, the telephone. To go on with the research required money, and he had none. His invention sounded so new, so impossible, nobody was willing to part with his hard-earned cash to back it.

Bell went to see his friend, a man by the name of Hubbard, in Cambridge. Hubbard was a rich man, and Bell hoped to interest him in his invention. But Bell knew it would be unwise to attempt to sell him on the "impossible" idea of making a voice go over a wire.

Bell was as good a salesman as he was inventor. He sat down and played Hubbard's piano for a while. Then he looked at Hubbard and said "Do you know that I can make this piano sing?"

Hubbard was interested, but skeptical. Bell depressed the pedal, sang "do" and the piano wires vibrated back, "do." Then, as he explained how he had done it, he described his own discovery, the harmonic principle of voice transmission.

Hubbard backed his project.

Editorial of the Week

DEMOCRATS SHAPE STRATEGY

Columnist Ray Tucker says House Speaker Sam Rayburn has flashed a "green light" for passage of more liberal legislation, a key part of the Democratic party's strategy between now and the 1960 elections. As for so-called liberal legislation, there is little evidence that Speaker Sam has ever flashed a red light—with possible exception of civil rights.

The party's plans are becoming clearer. Welfare state bills will be pushed. If the budget is unbalanced, to heck with it. If the president vetoes them, to heck with him.

Republicans again will be called the tools of big business, the pleaders and protectors of special interests. Democrats of course, will be the "party of the common man."

This strategy is Rooseveltian, except on a grander scale—tax and tax, spend and spend. F.D.R.'s New Deal cost only around seven or eight billions a year. Washington these days spends ten times that.

If Democracy is elected in 1960, its troubles will only have begun. The national debt will be pushing \$290,000,000,000. Heavier tax loads will be necessary. The more welfare in a welfare state, the worse inflation becomes.

Somebody will have to put on the brakes. Whoever assumes control of the white house will face this unpleasant reality.—Dallas News.

RECALLING Other Years

★ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated June 28, 1929:

Mrs. C. W. Newsom and daughter, Wayne, returned Wednesday from a visit to Ballinger.

Mrs. Troy Morris and children left Monday for National City, California, where they will spend the summer with her parents.

The Hamlin cream route that was established several weeks ago continues to grow with the addition of more producers.

The soil at the City Park is being tested for the foundation of a new high school building. The big structure will start soon, it is announced.

Mayor Jerry Waggoner returned this week from Fort Worth, where he had been attending a meeting of pharmacists from all over the state.

Mr. and Mrs. Herman Hale of Turkey spent the week here visiting Mr. and Mrs. W. A. Nobles and Mr. and Mrs. Mahlon Nobles.

Mrs. E. T. McGee and daughter, Cleo Belle, returned to their home in Dallas Tuesday, after a pleasant visit with her daughter, Mrs. Burns Eakin, and family.

TWENTY YEARS AGO.

From the files of The Hamlin Herald dated June 30, 1939, the following news briefs of 20 years ago are reproduced:

Dr. Robert Johnson of Camp Scott near Granbury came up to attend the funeral of Gerald Morgan Monday.

Beautiful rains first of the week have given crop prospects in the territory considerable boost.

Mr. and Mrs. W. L. Cash spent last week with friends at Christoval.

Margaret Ruth Sellers is again in Baylor Hospital at Dallas for bone treatment.

Mr. and Mrs. T. C. Robertson and Mr. and Mrs. S. A. Hard and children visited Mr. and Mrs. Gaylon Robertson at Woodson Sunday.

Mr. and Mrs. Ira Clements and sons, Jimmy and Joe, and little Kaleta Adkins are visiting Mrs. Clements' sister, Mrs. Oscar Owen, and family at Albuquerque, New Mexico.

TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated July 1, 1949:

Mrs. B. S. Ferguson announced this week that she is planning the construction of a new drive-in type theater in South Hamlin.

Numbers for houses of the residential sections of Hamlin have been ordered as a prelude to free mail delivery in town. The project is being sponsored by the Rotary and Lions Clubs.

Bank deposits at the Farmers & Merchants National Bank showed a slight gain over the previous statement in the official call for June 30. The new deposits total is \$3,493,430.

More than 200 ranchers of West Texas and others attended the barbecue dinner last Wednesday at the Y-6 Ranch of Mrs. Faye Young Morton, north of Hamlin. The dinner was part of the annual tour of the West Texas Hereford Breeders Association.

FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from the issue of The Hamlin Herald dated July 2, 1954:

Ernest Roberts, 21-year-old Roman man, sustained severe internal injuries early Friday morning at the Celotex plant southwest of Hamlin, when a big stack of board material fell on him.

Hundreds of former residents are scheduled to return to the first annual Neinda community homecoming scheduled Sunday.

More than \$26,000 in pledges was raised Sunday by the First Baptist Church on a proposed \$87,000 educational building project, according to Rev. Houston Walker, pastor.

ONE YEAR AGO.

News hits from the Hamlin Herald dated July 3, 1958, include the following:

Bank deposits at the Farmers & Merchants National Bank passed the \$5,000,000 mark reaching \$5,031,167.23 in the latter for the close of business June 30.

City of Hamlin exercised its option to increase its water take from Lake Stamford to 1,000,000 gallons per month at Tuesday evening's City Council meeting.

Most Hamlin business houses will close all day Friday in observance of the Fourth of July as a legal holiday.

Economic Loss Is Big Item in Toll of Traffic Accidents

Texas traffic accidents last year not only took a total of 2,342 lives—an average of almost 200 each month—but also resulted in an economic loss of \$347,311,000.

Colonel Homer Garrison Jr., director of the Texas Department of Public Safety, pointed out this week that most of the worst accidents occur in rural areas.

"The tragic loss of life by far overshadows any monetary consideration but the staggering amount of property damage that is wrought on the streets and highways of our state should not be overlooked," he said.

Considering the fact that so many of these accidents happen in areas where farmers and ranchers live, Garrison used an acre of land to illustrate one way to look at "the high cost of traffic accidents."

"An acre of land measures 43,650 square feet," he said, "and the United States currency measures about two and five-eighths inches by six and one-eighth inches."

"If an acre of farm or ranch land were completely covered with one-dollar bills, then a layer of two-dollar bills, then layers of five, ten, twenty, fifty, hundred and five hundred—and this topped with 231 tons of silver dollars, then this would represent the economic loss from traffic accidents in Texas during 1958."

Garrison, drawing upon the department's statistical services division, noted that \$347,311,000 would buy 5,000 farms or ranches at \$40,000 each, 5,000 refrigerator-freezers at \$800 each, 5,000 electric kitchens at \$700 each, 5,000 color TV sets at \$700 each, 5,000 living room suites at \$1,400 each, 5,000 air conditioning units at \$1,400, 5,000 pick-up trucks at \$3,000, 5,000 tractors at \$3,000, and 5,000 registered bulls at \$600.

"And there would still be enough money to furnish the head of each of these 5,000 farms or ranches with a bank account of \$17,862," he said.

Talk is never cheap when you have to take some of it back.

PROMOTION to the rank of first lieutenant and commander of a tank company in Korea has just been announced for John B. Baker Jr. (above) who married the former Frankie Address of McCaulley.

John P. Baker Jr. was promoted June 5 to the rank of first lieutenant at Camp Beavers, in Korea, and company commander of Company C, Second Medium Tank Battalion, 40th Armored Division, relatives at Hamlin are advised.

Lieutenant Baker graduated in August, 1957, from Hardin-Simmons University at Abilene and received his commission as second lieutenant. He entered service in December, 1957, and took his officer's basic training at Fort Knox, Kentucky, and has been stationed at Fort Hood and Camp Gary, Texas, before going overseas in September, 1958. He will return to the states in October.

He married the former Frankie Address of McCaulley. She and their six-month-old daughter live with her parents, Mr. and Mrs. L. R. Address, at McCaulley.

Advertising is not something to take your money without results; if necessary, make a study of what you have to offer your customers.

County Bond Sales Reach 45.4% of Allotment for Year

Savings bond sales for the first five months of 1959 totaled \$220,946," A. C. Humphrey of State's bond committee, reported this week. "Our county has reached 45.4 per cent of its 1959 goal of \$487,000. May sales were \$37,730."

Sales in Texas for the first five months of 1959 were \$69,397,546. This is 38 per cent of the state goal for 1959.

"An important part in assuring our nation's safety and economic stability and growth is played by purchasers of United States savings bonds," stated the county chairman.

Jones County ranks fourth in the nine-county District 16 group of counties in percentage of goal reached. The nine counties, with their cumulative sales for the year and percentage of assigned goals attained follow in the table below:

County—	Year's Sales	% of Goal
Callahan	\$ 49,040	22.0%
Eastland	223,712	41.0%
Fisher	35,566	41.8%
Haskell	141,184	44.0%
Jones	220,946	45.4%
Nolan	229,334	55.6%
Shackelford	93,401	39.6%
Stephens	145,480	32.2%
Taylor	677,988	48.0%
Totals	\$1,816,986	43.6%

John P. Baker Jr. Gets Promotion to Rank of Lieutenant in Korea

John P. Baker Jr. was promoted June 5 to the rank of first lieutenant at Camp Beavers, in Korea, and company commander of Company C, Second Medium Tank Battalion, 40th Armored Division, relatives at Hamlin are advised.

Lieutenant Baker graduated in August, 1957, from Hardin-Simmons University at Abilene and received his commission as second lieutenant. He entered service in December, 1957, and took his officer's basic training at Fort Knox, Kentucky, and has been stationed at Fort Hood and Camp Gary, Texas, before going overseas in September, 1958. He will return to the states in October.

He married the former Frankie Address of McCaulley. She and their six-month-old daughter live with her parents, Mr. and Mrs. L. R. Address, at McCaulley.

Cardinals Lose Again But Hold Onto Lead in Little League Loop Standings

Commanding lead of the Cardinals in the Little League baseball standings was cut down a little last week when they lost another game in a scoring spree to the Yankees, but the second place Braves still are several games behind. The Cards, after their 4 to 20 Monday loss to the Braves, came back Tuesday night and trounced the Braves 3 to 2. The Yankees pulled up considerably in the percentage column with two victories, the Monday night sashay over the Cardinals and a 15 to 3 victory over the Giants Friday night.

With seven weeks of play in the league passed—and with four postponed games to make up—the standings looked like this after last week's tilts:

Teams—	P.	W.	L.	Pct.
Cardinals	12	9	3	.748
Braves	11	6	5	.545
Yankees	13	6	7	.462
Giants	12	3	9	.250

June 22—Yankees 20, Cardinals 4.

The Yankees combined eight bases on balls, 14 hits (including a home run) and several errors on the part of their opponents to drub the league leading Cardinals 20 to 4 Monday night as the Little League feature of the week. They started scoring early by putting over four runs in the

first inning on two walks and two hits, one a home run by Rupert Compton. They tallied eight more in the fourth on five hits, singles by Danny Warner, Dwayne Bundas and Janey McCoy, and two doubles by Compton. In the fifth four more runs were marked on three hits. In the sixth the Yankees tallied four more runs on three hits. The Cardinals made two runs in the first on two walks and a hit; another in the third on two hits, one a two-sacker by Jimmy Inzer; and one more tally in the fifth inning on two walks and a double by Inzer.

The box score:

Yankees—	AB.	R.	H.
Lanny Foster, lb.	3	4	2
Johnny Snapp, rf.	5	2	1
Danny Maberry, 3b.	4	1	0

June 23—Cardinals 3, Braves 2.

One of the best games of the Little League season was the tilt last Thursday night when the Cardinals, steaming under their 4 to 20 loss Monday night to the Yankees, came back to trim the Braves 3 to 2. Two singles in the first inning made no runs for the Cards. In the third frame a double and a single tallied no score as the Braves held strong. They pushed over three runs in the fifth on singles by R. D. Houghton and Jimmy McCurdy, and a double by Jimmy Inzer. Another run was tallied in the sixth inning on two singles and a hit batter. The Braves scored one run in the fourth inning on an error, a walk and two stolen bases. Again in the sixth George

ESCAPE FROM KILLER—Mr. and Mrs. Lee Darter, still handcuffed and emotions deeply lined on their faces, rest on the ground after escaping from crazed killer Frank Windsor in Dallas, who held them and two others hostage all night.

Smith, who walked, after three others walked was forced in.

June 26—Yankees 15, Giants 3.

The Yankees went on another scoring spree Friday night to beat the Giants 15 to 3 and keep their record clean for the week's play. The Yanks' six runs in the third came on three walks and four hits, three singles and a double by Rupert Compton. In the fourth Johnny Snapp got on on a fielder's choice and scored when Compton walked and Dwayne Bundas singled. Eight runs were scored by the Yankees in the sixth on two walks, four singles, and a double by Janey McCoy. The Giants made all three of their runs

Niece of Hamlin Folks Is Burned Seriously

Condition of Judy Morgan of Abilene, 14-year-old niece of Mr. and Mrs. Ned Moore of Hamlin, who was seriously burned 10 days ago, is improved considerably, latest reports declare. The Moores visited the girl last week at the Hendrick Memorial Hospital in Abilene.

Judy was burned Monday night of last week when a kerosene burning hurricane lamp, being used at a backyard party, exploded and threw flaming kerosene on her.

One reason newspaper advertising is better and more effective than any other kind is that it is never rammed down your throat; those who read such advertising do so because they want to.

in the fourth inning on four walks and a double by Woolf.

Insect Hordes on Cotton Increasing Over Most of State

Thrips continued to be a problem over much of the state because so much cotton had been replanted and was young enough to be very susceptible to thrips damage, declares the weekly cotton insect condition report to The Herald from the Texas Agricultural Extension Service in cooperation with the plant pest control division of the U. S. Department of Agriculture. The release continues:

Fleahopper infestations were damaging in many places but variable throughout the state. There was still a large reservoir of infestation in the weed hosts which were maturing irregularly because of unusual weather conditions. Fields should be checked frequently under these conditions. Some adults in the fields soon after treatment when migrations occur do not necessarily mean that the treatment was ineffective but numbers of nymphs surviving or young blasted squares do. The addition of other types of insecticides or DDT to the chlorinated hydrocarbons as indicated in Bulletin L-128, "Texas Guide for Controlling Cotton Insects," may be necessary if difficulties in control occur. When this is necessary an especially close watch should be kept for early bollworm infestations.

Over-wintering boll weevils in the Central portion of the state were attacking the older, squaring cotton rather heavily. Bollworm infestations were generally light. Some rather high leg counts were reported where cotton was being treated for fleahopper control.

In the portion of the release on Northwest Texas the release said: Thrips infestations were reported light in Mitchell and Nolan Counties; medium in Jones County; light populations of fleahoppers were noted in Jones and Mitchell Counties. False wireworms were reported to have damaged stands of cotton in Scurry County.

Herald Being Printed Earlier Than Usual

This week's edition of The Herald is being printed two days early and subscribers should receive their paper Wednesday. This advanced printed scheduled permits some members of the paper staff to have several days' vacation without missing a paper. Several late stories no doubt will be missing from the paper, but we hope subscribers will appreciate our efforts to have a few days' rest the week of Fourth of July, following a custom of several years' standing. The office will be open all week except Saturday, a legal holiday.

COUNTY FAIR

(concluded from page one)

County show, which has been held successfully for 13 years.

Other officers for the association include Bill DeBusk, vice president; Kirby Clayton secretary; and R. S. Spraberry, treasurers.

The officers, along with the following men and women, will serve as directors of the association: Bert Foster, Starr Inzer, Birger Haterius and Mrs. D. C. Rister Jr.

Superintendents named for the various departments are: Willie Holloway, swine; Roy Moritz, dairy cattle; Boots Spraberry, sheep; Merrick Harvey, beef cattle; L. C. Bonds, horses; Bill DeBusk, field crops; Ernest Spraberry, commercial exhibits; Woodrow Simmons, parade; R. S. Spraberry, farm equipment exhibits; Mrs. C. R. Case, women's departments; J. E. Touchstone, grounds and buildings; Ed Spowils, Roy Craig and Willard Jones, publicity; Kirby Clayton, catalog; and C. E. Gregory and Harris Wright, finance.

Rules and regulations for the show are being drafted by a committee to be adopted by the executive committee. Application is being made for a charter for the association.

LAINS HAVE VISITORS.

Mr. and Mrs. Roy Buie and children, Marsha and Charlie, of Fort Worth visited Mrs. Buie's parents, Mr. and Mrs. J. C. Lain. Marsha and Charlie are visiting this week with their grandparents while their Dad and Mom are on the Texas Coast fishing.

WINS AWARD—Ellen Mae Boyd (above) of Weslaco, outstanding musician and accompanist of Texas Woman's University at Denton, has been awarded the Leman Award which goes to the graduating senior who has made the greatest artistic contribution to the university.

Social Security Man Slates Hamlin Visits

Regular monthly visits are being made to Hamlin by a representative of the Social Security Administration office at Abilene. He has released a schedule to The Herald showing visits scheduled at the Hamlin fire station at 10:00 o'clock a. m. on Fridays, July 10, August 7 and September 4.

If you have questions about your social security account you are invited to confer with the representative on his call at Hamlin or you may write Social Security Administration, Box 5168, Abilene, Texas.

NOTHING STRANGE.

Gypsy Trucker—"Hey, gal, c'mere. I haven't found the slightest silver of chicken in this chicken soup."

Diner Waitress—"Well let me tell you somethin', big daddy, you won't find any horse in the horse-radish either."

CLOSED

More and more the freedoms that we in this liberty-loving country enjoy are cherished when we reflect on the fact that so much of the world today is still in turmoil and confusion. What our forefathers fought for and brought down to us, we are determined to keep as our heritage. They shall continue to be ours only through zealous alertness against the threatening hordes that would destroy these principles.

Jones County Club Women Plan to Help with Three-County THDA Camp

Representatives of the Home Demonstration Clubs of Jones County met at Anson last Wednesday in Mrs. Mary Y. Newberry's office for the monthly council meeting. Twenty-four members and six visitors attended with 11 clubs represented. Mrs. Newberry was away at 4-H Club camp.

All clubs were asked to bring the dues of \$1 per person to the council session next time as these were due in June.

Jones County women will have charge of registration at the three-county THDA camp at Lueders on July 23 and 24, it was announced. Fees will be \$2.50 for meals and 25 cents for registration. All members are urged to

Women from First Baptist Church Visit Oak Grove Society

Several women from the First Baptist Church were special guests Monday evening of the Woman's Missionary Society of the Oak Grove Colored Baptist Church when the group met in regular weekly session.

Mrs. Tate May gave the devotional for the evening on "You and Your Life." Mrs. Lesley Shelburne and Mrs. Leon Moore sang a special number. Other women visiting were Mrs. Gene Prewitt and Mrs. Clyde Grace.

Also appearing on the program were Mrs. Bertha Jones and Mrs. Louberta Maxwell, members of the WMS group. The pastor, Rev. J. L. Johnson, offered the closing prayer.

At the conclusion of the program, refreshments were served to attendants during a fellowship period.

attend, for a good program is planned for this year.

The Home Demonstration Clubs will take an active part with exhibits at the forthcoming Jones County Fair in September, to be held at Anson.

Mrs. Tarpley sent in her resignation as reporter for the council, and Mrs. Elmer Joiner was appointed to fill her unexpired term.

Delegates were elected to the state convention, to be held at Galveston September 16 to 18. Delegates elected were Mrs. Walter Grimm, chairman of the council and member of the Tuxedo club; Mrs. H. T. Steele of the Friendly Circle Club and incoming THDA chairman; Mrs. J. E. McCoy of the Good Neighbor Club. Alternates are Mrs. Ab Hunter of the Comere Club, Mrs. Sol Branscum of the Friendship Club, and Mrs. Hazel Strand of the Pleasant Valley Club.

J. H. Morton Children Meet in Get-together At Anson Relative

All the children of the late Mr. and Mrs. J. H. Morton of Hamlin had a family get-together last week at the home of Mr. and Mrs. Ernest Glazner in Anson.

The day was spent visiting, reminiscing, picture making and feasting.

Attending the reunion were Mr. and Mrs. Hubert Morton and children of Arlington; Mr. and Mrs. Lester Morton and children of Odessa; Mr. and Mrs. J. H. Griffin of Sherman; Mr. and Mrs. J. C. Lain, Mr. and Mrs. Dale Lain and Gil of Hamlin; Mr. and Mrs. Buie and children of Fort Worth; Mr. and Mrs. Jeff Glazner and children of Abilene.

Many Dishes May Be Prepared Easily With Cottage Cheese

Call it Dutch, call it baker's, or call it pot. By any name, cottage cheese is still the same fine milk product it was in colonial days.

Settlers from Holland and Germany introduced the art of making cottage cheese to this country. Their skill for making and using "swearcase" has been passed down from generation to generation.

Here's one of their recipes that has become famous. It's called Dutch cheese cake. It's an inexpensive, but elegant dessert, calling for one pound cottage cheese, one-fourth cup milk, one-third cup sugar, grated rind and juice of one lemon, one pie crust, one-half teaspoon salt, one-half cup chopped raisins, three eggs beaten and two tablespoons melted fat.

Bake the crust in a deep pan until a delicate brown. While it's baking, press the cheese through a fine sieve. Add first the milk, then the sugar and salt and the raisins; next the beaten eggs, melted fat, lemon juice and grated rind.

Stir until mixed well. Fill the baked crust with this. Bake in a moderate oven until firm in the center—about 15 or 20 minutes.

Cottage cheese is no longer confined to areas settled by the Dutch and Germans, for it is sold in every community in the country.

Since 1925, per capita consumption has risen from less than a pound to nearly three and one-half pounds, says the Texas Extension Service.

Little Things Make Sewing More of Joy

Little things mean a lot when you are tackling a sewing project. For instance, a loose tension and a long stitch are necessary for successful sewing when using wool, rayon or nylon jersey fabrics.

It's smart, too, to keep two pairs of scissors in your workbasket. Use a pair of dressmaking shears for cutting material, and a small pair for snipping threads.

Sheer or slippery material often is difficult to handle. So, before cutting out, first in it to some wrapping paper, then cut through the paper and cloth at the same time.

THESE WOMEN!

By d'Alessio

"Yes, weren't Perry Como, Gene Krupa, and the Late Show just swell last night... I didn't have a date either!"

Care in Joining Seam Edges Will Help Finished Garment Look Professional

Do you sometimes wonder which goes on top when joining seam edges? The rule is that you keep the difficult edge, which needs close attention, on the top where you can see and adjust it.

For instance, if you are easing a slightly longer seam edge to a shorter one, you keep the longer edge uppermost. When hand sewing, the edges are put together in this position and the fabric is then held over the left forefinger when being sewed.

Homemakers from DePriest School Go to State NHA Workshop

Mrs. E. F. Ford, homemaking teacher at the DePriest Colored School, accompanied by Juanita Douglas and Etta Martin, attended the Negro Homemaking Association leadership workshop at Texas College at Tyler last weekend.

Theme for the meeting was "NHA Members Work" and work on various committees to learn more about the NHA Club and how it functions was studied. Approximately 120 girls from over the state attended the meeting.

The gathering was climaxed by a picnic which was given at the Pinehurst farm, with a skit presented by NHA members entitled "Hawaiian Holiday."

Mrs. Ford announces that the summer phase of homemaking in the local school will close July 1.

Fruits and Vegetables Top Plentiful Foods List for Month of July

Fresh plums top the July list of plentiful foods in the Southwest, as California's new crop crop is estimated at 64 per cent more than last year.

Peaches, lemons and limes are other fruits on the list. Eggs will continue plentiful, as will ice cream and small size turkeys. Summer vegetables will show up in wide array throughout the area.

Peanut butter and vegetable fats and oils complete the July list of plentiful, as announced by the U. S. Department of Agriculture's Southwest food distribution division at Dallas. Each item is expected to be in heavier-than-normal supply, and menu planners usually will find it economical to rely heavily on these foods.

This helps to take up the surplus length in the upper part and distribute the fullness evenly. Machine sewing also is done with the basted eased edge on top.

Do not attempt to hand sew the usual seam with two edges of equal length by this over-the-forefinger method. Dressmakers warn against it, as the upper edge pulls up a little all along and will come out shorter. On some fabrics both edges may stretch.

If you are joining a pile and a plain fabric or a silk and woolen one, you pin the entire seam, then stitch with the plain fabric or the silk one on top. Sometimes it is necessary to baste on each side of the seam line to hold a slippery fabric to a smoother one. Then stitch as usual, on the seam line between the two rows of basting.

When a bias section needs to be joined to a straight edge, pin the seam all the way, then baste it and machine stitch. The bias edge is kept on top.

REMOTE CONTROL.

"Have you ever driven a car?" the lady applicant for a license was asked.

"Over 100,000 miles," put in her husband, "and never had a hand on the wheel."

A little push will perform more miracles than any amount of pull.

Teacher of Naomi Sunday School Class Honored for Birthday

Members of the Naomi Sunday School Class of the First Baptist Church met Wednesday in the home of Mrs. Ruby Brown for the monthly social and business session. Co-hostesses were Misses. Vincie Walton and Mattie Lafler.

President Ola Waymire presided for a business session. Mrs. Vincie Walton opened the meeting with prayer. For a devotional period each attendant gave her favorite Bible verse.

Since the class teacher, Vincie Walton, had had a birthday several days previously, the class group surprised her with a birthday cake and sang "Happy Birthday." They presented a gift.

Those attending were Misses. Ruby Perryman, Ruth Holbrook, Lillian Greer, Vincie Walton, Billie Goddard, Lela Lain, Lurline Young, Leona Carter, Ola Waymire, Mattie Lafler and Ruby Brown.

Quick Waffles Can Be Made of Bread

Surprise your breakfast guests with a batch of waffles made from a loaf of bread. They'll wonder why they never thought of this easy trick themselves.

Speed eight to 10 slices of enriched bread lightly, but evenly, on both sides with butter. Add three-fourths cup of milk and a dash of salt to slightly beaten egg. Blend well. Dip the slices of bread into the mixture.

Place in a moderately hot waffle iron. Bake for five minutes, or until golden brown. Serve with maple syrup.

Correct Application of Hairdo and Beauty Aids Can Affect Whole Face

The only thing out of line with your tired old face may be your hairdo, reminds Vivian Brown, AP Newsfeatures beauty editor. If it gives a top-heavy look to your features—it may make you look bigger than you are.

"What you look like above the neck can influence the proportions below the neckline," says Eddie Senz, an authority on make-up. "Bulky, massive hair framing the face and gross exaggerations of your brows and mouth can destroy the necessary balance between the hair and face area, throwing the rest of the body out of proportion."

Many young people are achieving a careless rather than a casual look in coiffures, says Senz.

"A hair style with a free flowing natural look is attractive and appealing if it is controlled, if its casual lines result from expert shaping and tapering, if the setting is planned to appear neatly controlled or casually natural when combed and brushed." The mass of hair is then reduced to the proper proportion for the head.

Many teen-agers do not realize how important it is to achieve this casual look through proper channels, says Senz. They are likely to try to offset the hair unbalance by emphasizing face make-up, heavy brows and an unnatural definition of the mouth.

"Make-up should be used as a corrective device to improve feature faults, and as an accent to bring them into sharper focus. Both desirable effects can be achieved with delicate make-up

accents. The total effect should be glowing loveliness, not a painted look," he says.

One mistake some young people make is penciling their brows in hard, angular lines. This completely overshadows the eyes, which in a young girl should be played up. Another beauty borer is extending the mouth line beyond its natural outline and with too intense lipstick, says Senz.

When it comes to hair, Senz usually prescribes the close-to-the-head look for young girls to elongate the shape of the face, particularly if it is chubby. Bangs may be worn, but should be airy and flattering with lots of the forehead showing, he says. This will help give an oval look instead of a round silhouette to the face.

VISIT IN EL PASO.

Mr. and Mrs. Tom Nall spent several days in El Paso visiting with their son, Charles, and his wife. They also visited friends and relatives in Andrews and Lamesa.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin.—Much more than just taxes is being written now at the state capital.

Political careers also are being shaped—or broken. Climate is being determined for business development—or freeze. Cost of living for every Texan is involved.

That's what the edginess, temperament, fussing and name-calling is all about right now.

Seldom, if ever before, have lawmakers been so sensitive to criticism—from governor, from press, from public.

For the first time in years, the House met on a Saturday (June 30) to work on the long overdue tax bill. Knuckling down had come reluctantly—but surely—after governor and press had chided lawmakers for long Thursday-to-Monday recesses during the short 30-day special sessions. Lawmakers fussed back earlier in that week—but they stayed late.

For the most part, the fussing was all bark and little bite. House members who threatened to evict capital news reporters from their capitol quarters and House floor press table in reprisal weren't taken seriously. Reporting of legislative affairs is fundamental to the democratic processes—and no one realizes it better than do lawmakers.

In brief: Pressures mounted... a safety valve blew... and work was resumed in earnest.

New Tax Proposal.—A two per cent "luxury tax" on items costing more than 50 is the principal new feature of a House committee approved revenue bill.

Tax committee voted 12 to 6 to send the bill by Representative Frates Seelgison of San Antonio to the House floor.

Like several previous bills, it was an attempt to compromise the conflicts between the sales taxers and business taxers. It would raise an estimated \$170,000,000 for the biennium.

About \$36,000,000 would come from the luxury sales tax. About \$6,100,000 would come from a one per cent severance beneficiary tax on natural gas, and about \$13,000,000 from increased franchise taxes on corporations.

Rest would come from increased levies on gross receipts of utilities and sales of automobiles, tobacco, wine and liquor.

In the showdown on taxes last session, the House refused to approve a bill heavy on sales taxes. Some committee members voted against this bill on grounds that a two per cent sales tax, even though it was only on \$50 or more items, would be ruinously unpopular.

A majority of the Senate, however, has shown definite disapproval of loading too much of the new burden on business. They feel heavy business taxes would shut out industry and cut off the source of new prosperity.

Spending Bills Repassed.—Both houses repassed the appropriation bills that went through the first special session.

They went to same conference committee that worked before to adjust differences. House bill was some \$20,000,000 higher.

Conference committee reportedly did most of the routine work on the bills and set them aside until a tax bill could be passed to make spending possibilities more definite.

Still Fending.—The abandoned property bill, which provoked some of the most heated legislative debate this year, is having its third round.

Representative James Bates of Edinburg, sponsor, told the House tax committee the bill wouldn't change the escheat laws that have been on the statute books for years. He declared it would make the old law more workable.

Bates' bill, as introduced this session, would require banks and others holding money or property unclaimed for seven years to report it to the state within 60 days after passage of the bill.

It also would give state agencies authority to examine the books and records of businesses to see if they are holding such property.

Bankers labeled it a "free hunting license into all bank accounts" and "unconstitutional search and seizure."

Bill was sent to sub-committee.

Student Fee Bill Moves.—Making progress in its second legislative round is a bill that would allow state colleges to require students to pay an activity fee.

Similar bill died in the first special session.

It would allow the colleges to make mandatory a student fee of \$30 a semester. This would pay for such campus services as hospital and medical care, book rentals, student publications and tickets to athletic and cultural events.

College presidents are supporting the bill. Those from smaller schools, particularly, say they need the extra revenue to stay in the black on these activities.

Spokesmen for student groups opposed. They said poorer students would rather do without these services than pay the fees.

Senate finance committee leaned toward the presidents' view, voted the bill out by a two-to-one majority.

New Beach Bill.—Senate has a simplified substitute for Representative Robert Eckhardt's bill to protect public beaches.

New bill says that no one shall get in the way of the public's right to go to and from public beaches. It leaves to the courts the job of defining where the line is between public and private ownership along the coast.

It would not, according to its Senate sponsors, cloud the title of privately owned land next to the beaches. Sponsors are Senators Jep Fuller of Port Arthur, Jimmy Phillips of Angleton, Culp Krueger of El Campo and Robert Baker of Houston.

At the House committee hearing on the Eckhardt bill many came to testify for and against. Supporters of the bill said the only opposition was from "selfish land owners." Opponents called it an effort to "take land without just compensation."

HE NEEDED CONTROL.

A young father was wheeling his baby son's carriage through the park. The baby was howling with rage, but the father was just repeating softly, "Control yourself James. Just remain calm, James."

A child psychologist observed approvingly and tapped the father on the shoulder. "That's the way to reason with little Jimmy," he said.

"He's Herbert," corrected the father. "I'm James."

Safety Clinic Staged For Celotex Workers

A five-week safety clinic is being completed Thursday night at the Celotex Corporation plant at Hamlin for the 190 employees of the concern, reports Jerry Howard, personnel supervisor, who has arranged the five-night series.

Dr. W. C. Hambrick, Abilene and Hamlin optometrist, who is chairman of the Texas Visual Conference and member of the Mid-Texas Safety Association, is conducting the series of lectures, stressing especially the importance of eye safety.

See The Herald for paper clips

USING THE OLD BEAN.

During World War II a bright young farmer in the Army overseas received a letter from his wife wanting to know how she was going to plant the potatoes in the east 40 without help.

The soldier wrote back, "Whatever you do, dear, don't dig up the east 40. That's where the guns are buried."

As is customary in wartime, his letter was read by the censor. Not long after he received a reply from his upset young wife saying, "A company of soldiers overran the east 40 and dug it all up. What shall I do now?"

"Plant the potatoes!" came his reply.

Several New Homes Built Recently in City

A steady construction of new homes in Hamlin has continued most of the year, reflecting the stability of the community and a healthy growth in home-owners in the community.

All three Hamlin lumber yards, Rockwell Brothers, Brannon and R. B. Spencer & Company (still operating an office in Hamlin although the yard was destroyed by fire last year) and Paul Bryan are building homes for sale, most of them in Northwest Hamlin.

Doing favors for people is habit forming in both directions.

BOYD'S FAMILY HOME.

All children of Mr. and Mrs. W. L. Boyd except one son and their families were visiting their parents for Father's Day Sunday. Here were Mr. and Mrs. Jack Hagelstein and children, Jackie and Mary Ann, of Boone, Colorado; Mr. and Mrs. Wright Boyd and Mr. and Mrs. Wright Grant Boyd and family of Lamesa; Mr. and Mrs. Phil Sparkman and children of Sweetwater; Mr. and Mrs. Dale Lane and grandchildren of Andrews; and Mr. and Mrs. Henry Albritton and girls of Hamlin.

There is little harmony in the home where parents are continually harping.

Increased Travel During Vacations Is Accident Threat

J. O. Musick, general manager of the Texas Safety Association, warned Texans that increased travel during the peak vacation months of June, July and August could—on the basis of past records—bring a traffic toll of more than 650 deaths and 81,000 injuries.

"This, of course, does not have to happen," Musick said. "The size of the actual toll will depend entirely on how many drivers heed or fail to heed a few common sense rules that could save their lives and the lives of their friends and neighbors."

Musick emphasized seven basic rules that will assure vacationers of a much higher degree of safety in their travels. They are:

1. Have a complete service check on the car: Brakes, tires, steering, lights and windshield wipers.
2. Be extra careful on strange roads.
3. Hold your speed to 60 miles per hour or below on the open road. Read and heed traffic warning signs and signals.
4. Put the time of arrival at

Invaders Will Play Graham on Saturday

Another thrilling colored baseball team is scheduled Saturday, July 4, when the Invaders, managed by Andrew Sparks and captained by Buddy Haley, meet the Graham Tigers at 3:30 p. m. at the Hamlin High School diamond in Southwest Hamlin.

The game will follow a barbecue lunch to be served at the City Park beginning at 11:30 (at 75 cents per plate), and a softball game between the Hamlin Sky Rocket Girls and the Snyder Yellow Jacket Girls. The softball game begins at 1:30.

ASSORTED FLOWERS.

"Has the new florist any children?"

"Yes, a girl who is a shrinking violet and two boys—one a budding genius and the other a blooming nuisance."

your destination last in importance and your safe arrival first.

5. Don't drive too long. Let someone else drive, or get off the road and take a nap.

6. Watch for pedestrians and animals along the highway.

7. Remember, you are on vacation, so be patient and courteous; streets and highways are no place for irritable drivers.

The Herald

Most Area Crops Reported Up to Good Stands Now

Cotton in the Hamlin territory is now about 98 per cent planted according to an estimate by Kirby Clayton, Jones County farm agent. A big percentage of the cotton is now up to a good stand, he declares.

About 65 per cent of the grain sorghum crop is up to a good stand, and much of it has already headed out.

Several farmers contacted by a Herald representative declare the recent rains in the area are the best they have seen in many years. Soil surface and sub-soil moisture in most localities is adequate for the present. Territory south and southwest of Hamlin is the exception to this rule, since that region still needs rain. The regions north, northeast and east of town have gotten several showers of rain which did not extend into the area south and southwest.

Livestock generally is in excellent condition, with some temporary pastures such as sudans furnishing grazing. Range grass is growing fast and there is adequate stock water in most sections.

Farm activities including finishing planting and cultivating young crops have farmers busy. Ranch work now is routine.

Freight Carloadings For Santa Fe Still Up

Freight carloadings for the Santa Fe Railway System for the week ending June 20, 1959, were 32,470 compared with 29,380 for the same week a year ago, showing a gain over year ago figures, continued a trend. Cars received from connections totaled 12,725 compared with 10,714 for the same week a year ago.

Total cars moved were 45,295 compared with 40,094 for the same week a year ago. Santa Fe handled a total of 42,469 cars in the preceding week this year.

ATTENDS LONG—Dr. Titus Harris is director of the department of neurology and psychiatry at John Sealy Hospital at the University of Texas Medical Branch at Galveston. Dr. Harris is also in charge of Harris Clinic. He is attending psychiatrist to Governor Earl K. Long of Louisiana, who was admitted to the hospital last week.

Rebuilding of Station Makes Good Progress

Workmen have been busy for several days remodeling the station of the Santa Fe Railway at Hamlin. The project should be completed within a few days, says Weldon Johnson, agent.

Offices are being moved to the south part of the structure, formerly used for a passenger waiting room. Rest rooms are being installed, and a trainmen's waiting room is being enlarged in the center section. Asbestos siding and red cedar paneling will be used on the outside.

HE AUTO LEARN.

"I see you're letting your son drive the car," observed the next door neighbor.

"Yes," the boy's father replied. "He's still too young to be treated as a pedestrian."

New Safety Law To Take Joy Out of Illegal Joy-Riding

The Texas Department of Public Safety reminded today a new state law—designed to take the joy out of illegal joy-riding—will go into effect August 11.

The new statute, passed by the regular session of the Legislature and signed into law recently by Governor Price Daniel, carries penalties up to three years in prison for driving a person's vehicle without his permission.

Heretofore, the offense was a misdemeanor unless it could be proven that the "joy-rider" intended to keep the vehicle. This made it universally difficult to conduct a felony prosecution, according to department officials.

Therefore, they pointed out, many of these cases were filed as misdemeanors simply because conviction was more likely. In this way, however, the maximum penalty was \$1,000 fine or one year in jail.

The new law divided the "without consent" statute into two classes, based on the value of the vehicle borrowed. The taking of a vehicle valued at less than \$200 without the owner's consent still will be considered a misdemeanor, without change in penalty. But if the value of the vehicle taken is more than \$200, the offense is a felony with possible heavier penalties ranging up to three years in prison.

In passing the new law, the Legislature stated: "The fact that the present law does not now provide sufficient penalties for the offense of driving a vehicle without the consent of the owner, and the act of 'joy-riding' has become a serious problem in modern times, this amendment is needed for the speedy administration of justice."

Colonel Homer Garrison Jr., director of the Texas Department of Public Safety, noted that the theft rate per 100,000 population in Texas increased from 122.4 in 1948 to 167 in 1958. He said 15,402 vehicles were stolen last year compared to 7,855 in 1948.

STRICTLY BUSINESS

by McFeathers

"What do you suggest for the man who hasn't anything?"

Stream Flow in State Below Normal in May, But Storage in Lakes Improves

While Central West Texas was the exception, stream flow in May was deficient or generally below average except from the lower reaches of the Colorado River eastward, according to the monthly water conditions report, just issued by the Texas Board of Water Engineers.

Paint Creek Lake, from which Stamford and Hamlin get most of their water, showed a decline from April. Other features of the report, in which people of the Hamlin area will be interested, follow: Intense spring rains caused local flooding in scattered areas. Small streams in the Palestine-Henderson-Longview area experienced the most severe flooding. Temporary flooding in the wake of locally heavy rains also occurred in several cities in West Texas and in the Panhandle.

A three per cent increase in conservation storage occurred in 34 major Texas reservoirs, the total being 8,215,000 acre feet at the end of May. This increase brought usable storage up to 81 per cent of capacity as compared to a usable storage of 94 per cent of capacity at the end of May, 1958. The bulk of the increase in conservation storage for the month came about by the increased storage in Lake Texoma.

Flow from Comal Springs decreased to an average of about 320 cubic feet per second, continuing above the long-time average flow to about 300 cubic feet per second.

Four of eight selected observation wells, recorded water level declines, and four recorded rises in water levels. The Carrizo sand well in the Winter Garden area near LaPryor recorded a water level 4.0 feet higher than a year ago and 23.3 feet higher than the all-time low in July, 1956.

Mean temperatures for May were slightly above normal as recorded at first order weather bureau stations throughout the state. Typical May thunderstorm precipitation was recorded throughout the month. Torrential rains on the first and second caused flooding on streams in East Texas.

According to a survey just completed by the state climatologist at Austin, the rains recorded at Austin, Laredo and Waco were the least to fall in 10 years for the month of May while for Midland it was the wettest May since 1941.

Rainfall totals and normal fall for selected weather bureau stations are shown in the following tabulation:

Station—	May, 1959	Normal
Abilene	2.34	3.68
Amarillo	4.82	3.01
Austin	1.66	4.37

Brownsville	.07	3.09
Corpus Christi	4.49	3.41
Dallas	3.18	4.97
El Paso	.30	.41
Fort Worth	3.27	4.92
Galveston	2.31	3.20
Houston	6.20	4.91
Laredo	.62	3.18
Lubbock	2.15	3.36
Midland-Odessa	4.99	2.07
Beaumont	4.01	4.40
San Angelo	1.59	2.96
San Antonio	2.43	3.52
Victoria	3.24	4.02
Waco	1.96	4.15
Wichita Falls	3.61	3.83
Lake Charles, La.	5.85	4.73
Shreveport, La.	3.23	4.55

Selected group of reservoirs in which Hamlin area people are interested show the following current storage data. The figures show storage at the end of May and per cent of capacity:

Reservoir—	Acres	% of Cap.
Lake Kemp	184,200	42%
Lake Texoma	2,542,000	45%
Bridgeport Lake	227,400	84%
Eagle Mountain	155,100	85%
Fort Phantom	62,780	84%
Paint Creek	46,400	78%
Possom King	535,800	74%
Lake Whitney	279,900	73%
J. B. Thomas	154,400	76%
Colorado City	19,760	65%
Oak Creek	28,850	73%
San Angelo	81,240	68%
Lake Brnwood	90,480	66%
Lake Buchanan	763,000	77%
Medina Lake	250,000	99%
Red Bluff	100,000	33%
Lake Falcon	2,327,000	57%

Area Girls to Attend Girls' Auxiliary Camp At Leuders Grounds

On Monday, July 6, the second Junior Girls' Auxiliary camp will begin at Leuders Baptist Encampment, and will close with the noon meal, Thursday, July 9. This camp will include the following associations: Abilene, Fisher, Jones and Stonewall-Kent.

Mrs. Donald Baid of Cross Plains will direct the camp. Other personnel include Mrs. W. M. Haverfield, missionary to Mexico; Rev. Ed Jackson of Rising Star, camp pastor; Mrs. Lee Bishop of Cross Plains, camp hostess; Mrs. George Gaham of Abilene, District 17 WMU president; and L. L. Troit of Abilene, District 17 missions secretary.

Activities include morning worship with the camp pastor leading, and the evening assembly will be conducted by the camp missionary.

Swimming and recreation are planned for both morning and afternoon. Vesper services will be held each night after supper, with the camp pastor directing.

Scores of Hamlin area girls are expected to be among camp attendants.

Hamlin Memorial Hospital Notes

Patients admitted to the Hamlin Memorial Hospital since last week's report in The Herald have included: Mrs. J. W. McKay of Roby, medical, June 21; Mrs. A. M. Burleson, medical, June 20; Mrs. Oscar Gonzales, medical, June 21; Mrs. E. W. Cox, medical, June 21; Mrs. W. L. Meeks, medical, June 22; Mrs. J. N. Hubbard, medical, June 22; Mrs. W. L. Terrell of Sylvester, medical, June 22; Danny McCurdy, surgical, June 22; Mrs. J. J. Bond of Sylvester, medical, June 23; Mrs. Bobby Joe Craft, ob. June 23; Wilma Welch, medical, June 23; Mrs. Bess Godwin of Midland, medical, June 24; Mrs. Calvin Bailey, medical, June 25; R. W. Higdon, surgical, June 25.

Patients Dismissed—Mrs. E. J. Holden, June 26; Mrs. W. W. Green of Odessa, June 25; Mac Brundage, June 27; L. H. McCollum of Sylvester, June 24; Mrs. J. W. McKay of Roby, June 27; Mrs. A. M. Burleson, June 20; Mrs. Oscar Gonzales, June 22; Mrs. E. W. Cox, June 27; Mrs. Ted Price, June 27; Mrs. W. L. Terrell of Sylvester, June 25; Mrs. J. N. Hubbard, June 24; Mrs. C. C. Prater, June 22; Gary McCasland of Midland, June 21; Mrs. Bess Godwin of Midland, June 27; Mrs. Calvin Bailey, June 25.

Chigger and Tick Menace on Lawns Can Be Controlled

The chiggers in your lawn and the ticks that your pets bring into the yard need be tolerated no longer, says Jones County Agent Kirby Clayton.

Most home-owners have at least one of these problems at some time during the year. Both pests create a problem in recreational areas, especially where wild animals are present to serve as hosts for the ticks.

One application of a practical and safe insecticidal control is now available for use in controlling them. For ticks use 10 per cent DDT, 10 per cent chlordane or two per cent dieldrin dust at the rate of 20 to 25 pounds or 20 per cent toxaphene dust at the rate of 10 to 15 pounds per acre where vegetation is sparse. Increase the dosage in heavy vegetation. If sprays are used, follow manufacturer's directions for mixing. Apply at the rate of 15 to 25 gallons per acre to lawns and 50 gallons per acre to heavy vegetation.

For chiggers apply dusts or sprays of chlordane, toxaphene or lindane to grass and ground litter where chiggers are present. An emulsion spray usually gives the best results. Follow manufacturer's directions for mixing the sprays.

For small areas, use a compressed air or knapsack sprayer and apply two and one-half to three quarts per 1,000 square feet. If dusts are used, apply five per cent chlordane at 40 to 50 pounds per acre or 20 per cent toxaphene at 10 to 15 pounds per acre.

For further information, contact your local county agent.

JUST ABOUT RIGHT.

When adults act like children, they're silly. When children act like adults, they're delinquent.

Jones County Boys To Attend Area 4-H Camp at Lake Cisco

Approximately 175 4-H Club boys from five counties of the region, including probably 20 to 40 from Jones County, are expected to attend the annual 4-H Club camp at Lake Cisco on Wednesday and Thursday, July 29 and 30, according to Kirby Clayton, Jones County agricultural agent. Counties participating in the camp are Palo Pinto, Shackelford, Stephens, Callahan, Eastland and Jones.

The two-day camp has been held annually since the early 1940s, with recreation the main theme. Activities include swimming, baseball, basketball, washer pitching, a track meet and a number of other events. Ribbons are given to the winners of the various events.

The boys attending bring most of their own food to the camp. Meat, ice and other incidentals are purchased in Cisco. They also bring their bedding.

The food is cooked by regular camp cooks. Clayton said insurance is carried on the camp to cover all phases of camp activities.

FOR A GRAND AND GLORIOUS FOURTH

Celebrate with Safety!

Yes, the Fourth of July means a good time for all . . . youngsters and oldsters alike. And, you know, the meaning in back of Independence Day is pretty wonderful. Most of us just take independence and freedom for granted, but maybe this year it would be a good idea to pause and give a little thought about how great it is . . . and how fortunate we are . . . to be Americans!

Right here in Hamlin, for example, we enjoy things that the people of many other nations never thought excited. Being able to read and say what we please . . . worship as we please . . . work at a job where enthusiasm and ability pay off . . . buy food and clothing and automobiles and anything else we might need or want are privileges that have been handed down by our forefathers. They fought to get them . . . we'll fight to keep them!

It all adds up to this: Our America . . . and our own community . . . are the greatest places on earth. Let's never ever forget it. Have a good and careful time this Fourth of July!

"We hold these truths to be self evident, that all men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are Life, Liberty and the pursuit of Happiness."

From the Declaration of Independence, adopted by the Continental Congress, July 4, 1776.

This patriotic page sponsored by the following Hamlin business firms, which will observe Independence Day by closing all day Saturday, July 4:

Local Post Office Working in Drive On Lewd Mailings

Workers in the Hamlin post office have been asked by Postmaster General Arthur E. Summerfield to cooperate in a national drive on obscene material being sent through the mails. Postmaster Dewey E. Sparks declares. They will give their wholehearted support, he says.

Postal officials declare that ruthless mail order merchants in filthy and obscene material of the nation in defiance of the national government. They are called on to deliver into the hands of our children through our home mail boxes, and are solicited to the sale of even more objectionable pictures, slides, films and related items.

Unquestionably, these large defiant forces of obscenity are contributing to the alarming increase of juvenile delinquency, as many noted authorities have repeatedly and publicly observed," says Summerfield.

"Just how important is this mass of mailed muck to you and to me? To our children? Our community? It is my deep conviction—frequently expressed to individual members of Congress, religious and educational leaders, newspaper editors and citizen groups—that one of the most serious moral and social problems in the United States today is the multi-million dollar mail order traffic in obscenity."

Any patrons of the Hamlin post office having information or material on obscene mailings are asked to report to the local postal workers, Sparks says.

If you have a problem that is worrying you a lot, the best thing to do is to turn it over to time—which seems to take care of everything.

One-Day Sunbeam Camp Set at Lueders Baptist Encampment

Sunbeam Day Camp will be at Lueders Baptist encampment on July 10, which a number from the Hamlin area will attend. This is a one-day camp for all boys and girls ages six through eight, and their sponsors.

Mrs. Rodney Dowdy of Rule will direct the camp. The camp pastor will be Rev. Herbert Barker of Rochester. Bill Page of Sweetwater will direct the singing. Joyce Gill, state Sunbeam leader of Dallas, will be the featured guest the day.

Registration begins at 8:30 a. m., and the cost of the camp is \$1 each, including insurance fee and lunch.

Theme for the camp is "A World Fair With a Missionary Flare." Tours will be conducted on the fair grounds by each association. These include: South of the Border, Flying Down to Rio, By Steamer to Africa, By Plane to Indonesia and Formosa, On to Japan, A Stop at the Isles of the Sea, A Stay in Alaska, and Back to the USA.

After lunch there will be swimming by groups. Other recreation has been planned for the Sunbeams that are not swimming. The program will close at 3:00 p. m.

Charles Absher Joins Simpson Fine Foods

Effective first of last week, Charles Absher became connected with Simpson's Fine Foods grocery store on North Central Avenue, according to Mr. and Mrs. Joe A. Simpson.

Young Absher, who married the former Faith Simpson, recently was discharged from the Army. Both he and his wife are graduates of Baylor University at Waco. He worked for a while in a Waco bank before deciding to join the local firm.

WOMAN SPORTS EDITOR—Jean Howell, a pretty girl who proudly bears the title of sports editor, does all right in what is usually a masculine world. The 23-year-old miss is sports editor of The Levelland Daily Sun-News. "My biggest problem," she says, "is getting gate-keepers in other towns to believe I'm a sports editor."

New Foreign Aid Bill Gives Others Projects We Don't Have, Says Burleson

The House of Representatives has passed a foreign aid bill of about \$3,500,000,000. It contains many programs and activities in foreign nations which we reject in this country, as a part of our government, declares Congressman Omar Burleson of Anson in his weekly news release from Washington to The Herald. His release continues:

The section in the bill known as the development loan fund, which carries \$700,000,000, encourages nationalization and ownership of industry, federal aid to education, socialized medicine and many other schemes repugnant to our own way of life.

The measure provides for hundreds of millions of dollars of public construction projects in other countries which we deny ourselves here.

We must engage in cooperation with other free nations of the world. The world is too small for us to live in it alone, but it is too big for the United States to support. The advocates of this legislation who want bigger and more foreign aid deny those of us who would vote for a modest, sensible and practical approach from supporting any kind of program at all. Seemingly, they believe it is the responsibility of this country to support all others willing to receive our assistance. Seemingly, they believe we can depend to thwart the ambitions and intents of the Soviet Union. The comptroller general of the United States testified before the foreign affairs committee that more failures have occurred in our foreign aid program because of too much money to spend rather than not enough.

It seems justified to point out that many of the deficiencies that we are trying to cure in foreign nations exist right here at home. Aside from the need of highways, flood control, conservation of our natural resources and many other improvements to be met when the financial condition of our country permits, there is the neglect of human resources for which we should be ashamed. The need of modern mental institutions is one, among many. And about 300,000 American Indians, most of whom are living in dejection and poverty on government reservations are another example. American Indians are about as poorly fed, housed and clothed as any people living in civilization. In Indian baby born today has a life expectancy of only 37 years as compared to the national average of 62 for the rest of us. The average schooling is five years, and only a very few receive any training which permits them to live in today's society.

Certainly we need the greatest possible cooperation with other free people of the world, that they and we not be engulfed by international Communism. We are competing with a hard, realistic foe who only thinks and understands in terms of force. To weaken our own nation economically and morally is no way to help others in a weaker position to combat this menace. The disease is not going to be prevented by running all over the world with billions of dollars worth of anti-histamine every time Khrushchev sneezes.

We are not going to help other people by inflating their economy with more money than can sensibly spend, while at the same time depleting our own resources. This is the result in many places of our foreign aid program. In addition to all this the international cooperation administration, the agency which handles foreign aid, has approximately \$9,000,000,000 unspent from past appropriations. It could operate for two years within its present activities without additional money. The \$3,500,000,000 authorized in the bill just passed would take care of more than one-third of the deficit in the federal treasury which will show up at the end of this month.

Refrigerated System Added by Baptists

Another unit of refrigerated air conditioning was added to the system of the new educational building at the First Baptist recently, according to the pastor, Rev. Calvin Bailey.

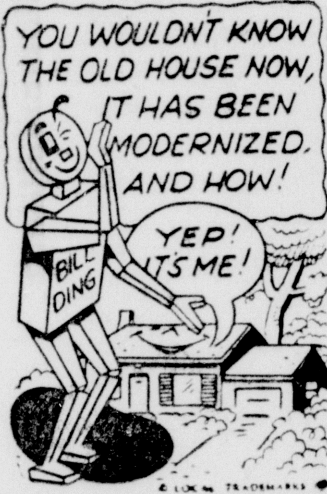

The installation completes the refrigerated system for the new two-story structure completed last year that contains 20 classrooms, three assembly rooms and other facilities.

ON THE NOSE.

A hypochondriac told his doctor in great alarm that he had a fatal liver disease.

"Nonsense!" protested the doctor. "You wouldn't know whether you had that or not. With that disease there's no discomfort of any kind."

"I know," gasped the patient. "My symptoms exactly."

Economist Points Out Credit Is Not Income Substitute

Credit is not a substitute for income.

Extension Economist A. B. Wooten points out that credit should be used to buy consumer goods only when some income is reasonably certain. Because farm and home needs overlap, it is important for the farm family to coordinate their needs. The farmer and homemaker should agree on how and where credit should be used.

According to the economist, the use of credit can help many farm people attain a desirable level of living; but misuse, he warns, often results in much unhappiness. There is a difference, he points out, between credit used for production purposes and that used for consumption. Production credit helps provide an income that will exceed the amount of money borrowed, while consumer credit is a way of spending money in advance of anticipated income.

Successful farm families must distinguish between necessities and wants and spend accordingly, he says. And, he adds, credit of the installment type is not good when farm income is on a seasonal basis. The time of income and the expected amounts should influence repayment arrangements.

Specialists who lend to farm businesses take a look at the assets and liabilities of both the farm and home. A loan that is good for one must also be good for the other.

Free Air Show Slated At Olney Saturday Featuring Helicopters

A free air show featuring Army helicopters from Fort Sill, Oklahoma, sky-diving acts, acrobatic flying, crop dusting demonstrations and other attractions, will be staged Saturday afternoon, July 4, at Olney Municipal Airport, to which people of the Hamlin area are invited.

In connection with the show, formal open house will be held at the plant of Olney's newest industrial establishment, the Snow Aeronautical Company, manufacturer of the S-2 agricultural airplane.

The aerial show will be from 1:00 to 4:00 p. m. During the morning hours, P. & V. Flying Service of Olney Municipal Airport will be host for a fly-in breakfast for flying enthusiasts within a 600-mile radius of Olney.

Expected to be chief attractions at the air show are the Army helicopters, being brought to Olney through special permission of the Department of Defense. Billed as star of the show is the huge H-37 Army helicopter, largest rotary wing plane in the world.

BACK FROM COLORADO.

Mrs. John P. Baker Jr. and daughter, Dana Patrese, and Aubrey Don Andress, brother of Mrs. Baker, returned home this week after a three-week visit with Rev. and Mrs. John P. Baker Sr. of Colorado Springs, Colorado.

If you have any doubt about your property line, your neighbor will remove it.

Communities on Highway 83 Urged To Attend Fiesta

Hamlin and all other communities along U. S.-Canada Highway 83 through Texas are being urged by Paul T. Vickers of McAllen, vice president of the association, to send delegations to the international convention at North Platte, Nebraska, October 7 and 8.

Vickers points out that a big attendance from Texas would help to publicize the attractions of Texas and thus produce more travel for every town on the route.

The Texas official says that as the last 11 unpaved miles will be completed by October, and as Governor Ralph Brooke of Nebraska has invited the premier of Canada, the governor of the Mexican state of Tamaulipas and the governors and highway engineers of Texas, Oklahoma, Kansas and the Dakotas to attend, the North Platte convention will likely be the biggest Highway 83 meeting ever held.

THEN HE GOT MAD.

A hillbilly was hauled into court for fighting. "Tell your side of the story," said the judge.

"Well, I was in a phone booth talkin' to my girl when this guy wants to use the phone. I opened the door, grabs me by the neck and tosses me out of the booth."

"Then you got angry?" asked the judge.

"No," the hillbilly replied. "I really didn't get mad till he grabbed my gal an' threw her out, too."

Representative from Social Security Office Visits Hamlin Friday

A field representative of the Abilene social security office will make regular visits to Hamlin during the next three months, according to a schedule just received from R. R. Tuley Jr., district manager.

The representative, D. G. Hudson, will be at the fire station at 10:00 a. m. on Friday, July 10, August 7 and September 4.

Anyone wishing to file application for retirement, survivors' or disability insurance benefits, or wanting information about social security should contact him there.

Persons planning on retirement should file their claims at least 60 days before actual retirement to avoid possible delay in receipt of benefit check for first month of retirement, Tuley added.

Interested persons can meet the representative or secure additional information by writing to the Social Security Administration, P. O. Box 5168, Abilene, Texas.

Consolidated Summary of Revenue and Expenditures of the CITY OF HAMLIN for the Fiscal Year Ended April 30, 1959

Honorable Mayor and Aldermen,
The City of Hamlin,
Hamlin, Texas.

Gentlemen:

In our opinion, the accompanying statement of Revenue and Expenditures presents fairly the operations of the City of Hamlin, as reflected by the recorded receipts and disbursements for the fiscal year ended on April 30, 1959.

Respectfully submitted,

ROBERT L. HART,
Knight & Hart,
Certified Public Accountants,
Abilene, Texas.
